

## **Natalie Newman - Primary**

**The year you trained with us**  
2015-2016

**Why are you glad you chose to train with us?**

I gained real hands-on experience of what the whole school year entails.

**Where has your work life taken you so far?**

I taught for the past 5 years in London, leading the Year 3 team, whole school EAL provision, NQTs and student mentoring and the implementation of a brand new art and DT curriculum.

**What's challenging about teaching?**

Providing the best for every child in your care, knowing that what every child needs is different!

**Equally why have you chosen to continue in teaching?**

No other career could provide the same level of job satisfaction and challenge. Not one day is the same, and one tiny comment from a child can make your day!

**Where do you hope to develop?**

To continue to support recently qualified teachers and students in gaining confidence in the classroom.
